## Schedule of Tuition, Fees, and Necessary Expenses

This section has been broken down into three parts:

- Tuition and fees payable to Larsen Inspection Training
- Fees that are necessary before, during, and immediately upon completion of the course. These fees are paid to agencies and vendors other than Larsen Inspection Training.
- Necessary expenses that are required prior to working. These expenses are paid to vendors other than Larsen Inspection Training.

## Tuition and Fees Payable to Larsen Inspection Training

Breakdown of Fees	Structural Masonry	Structural Steel/Bolting	Structural Welding	Reinforced Concrete	Prestressed Concrete	Soils	Spray-applied Fireproofing	DSA Masonry
Clock Hours	80 Course	55 Course	55 Course	80 Course	70 Course	55 Course	20 Course	30 Course
Registration Fee (non-refundable)	\$75.00	\$75.00	\$75.00	\$75.00	\$75.00	\$75.00	\$75.00	\$75.00
Course Tuition	\$1300.00	\$725.00	\$725.00	\$1300.00	\$1100.00	\$725.00	\$300.00	\$825.00
Payable to L.I.T.	\$1375.00	\$800.00	\$800.00	\$1375.00	\$1175.00	\$800.00	\$375.00	\$900.00

## Necessary Fees - Before, During, and Immediately Upon Completion of the Course

Breakdown of Fees	Structural Masonry	Structural Steel/Bolting	Structural Welding	Reinforced Concrete	Prestressed Concrete	Soils	Spray-applied Fireproofing	DSA Masonry
Books**	\$600.00	\$500.00	\$1000.00	\$650.00	\$800.00	\$515.00	\$175.00	\$430.00
Supplies***	\$75.00	\$75.00	\$75.00	\$75.00	\$75.00	\$75.00	\$75.00	\$75.00
Additional Training	None	None	Cert in Structural Steel/Bolting	ACI Cert \$400.00	Cert in Reinforced Concrete	None	None	Cert in Structural Masonry
Application & Testing Fee ****	\$200.00	\$200.00	\$200.00	\$200.00	\$200.00	\$200.00	\$170.00	\$195.00

*\*\*Textbook purchase is the responsibility of the student. A list of required books and the location they can be purchased may be obtained from Larsen Inspection Training. Prices are approximate and subject to change without notice. Prices listed are for one course of instruction. If multiple courses are taken, some of the same books may be used in concurrent courses and the resulting cost would be less.*

*\*\*\*Supply purchase is the responsibility of the student. Materials are needed within the course to successfully tab, mark, highlight and study the information. A detailed list of the recommend supplies needed may be obtained from Larsen Inspection Training.*

*\*\*\*\*Testing Fees are the responsibility of the student and are payable to the testing agency upon scheduling of test date. Prices are subject to change without notice.*

**Necessary Expenses Required Prior to Working**

<b>Breakdown of Fees</b>	<b>Structural Masonry</b>	<b>Structural Welding</b>	<b>Structural Steel/Bolting</b>	<b>Reinforced Concrete</b>	<b>Prestressed Concrete</b>	<b>Soils</b>	<b>Spray-applied Fireproofing</b>	<b>DSA Masonry</b>
<b>Specialty Tools *****</b>	\$250.00	\$250.00	\$250.00	\$250.00	\$250.00	\$75.00	\$10.00	None
<b>Safety Equipment *****</b>	\$300.00	\$300.00	\$300.00	\$300.00	\$300.00	\$300.00	\$300.00	\$300.00

*\*\*\*\*\*Specialty Tool purchase is the responsibility of the student. Tools that are used in Structural Masonry, Reinforced Concrete, and Prestressed Concrete are the same; Structural Steel/Welding and Spray-applied Fireproofing each have their own set of tools. Tools used for Structural Masonry are the same as DSA Masonry. Cost of Specialty tools is approximate, and frequency of their use may vary depending upon requirements of the specific job. The employer typically provides specialty tools that are not commonly used. A detailed list and location for purchase of common tools for each Specialty area may be obtained from Larsen Inspection Training.*

*\*\*\*\*\*Safety Equipment purchase is the responsibility of the student, and is necessary prior to employment, and not required for class. A list of required equipment may be obtained from Larsen Inspection Training. There is some carryover in safety equipment from one specialty to another.*
